

High School Actuarial Day at WVU

Why be an Actuary?

- Actuary is consistently rated as the **one of the best jobs in America** from many sources, including US News and World Report, the Jobs Rated Almanac and CNN Money.
- The **employment opportunities** for actuaries are increasing much faster than the average rate.
- Actuaries can expect **high starting salaries** and to become **respected leaders**, often in upper management positions.

When: 10am – 3pm, November 3 (Saturday), 2018

Where: Armstrong Hall, WVU downtown campus

Cost: Free (parents and siblings are welcome)

Registration deadline: October 31

To Register: go to math.wvu.edu and click “Actuarial Day” on top menu

Hosted by WVU Department of Mathematics

What to Expect

- Hear stories from actuaries in different industries sharing why they became an actuary and why they love their career.
- Experience actuarial science through the lens of real-world problems and hands on problem-solving activities.
- Find tips in how to be successful and the process for pursuing a career as an actuary as well as the resources available to students.
- **FREE PIZZA LUNCH** will be provided by the Department of Mathematics for all participants.
